

Terms and Conditions

1. Introduction

Welcome to Picterus website and Picterus® Jaundice Pro smartphone application an online information and communication service provided by Picterus AS («Picterus» or «We» or «Us»), subject to your agreement with all these terms and conditions («Terms»). Picterus AS is a limited liability company incorporated under the law of Norway and has its registered address at Professor Brochs gate 8A, 7030 Trondheim, Norway.

Picterus AS may modify these Terms at any time, and such modifications shall be effective immediately upon posting the modified Terms on the Picterus® Jaundice Pro and website. We will ask you to acknowledge that you have received the modified Terms prior to your usage of Picterus® Jaundice Pro.

If you do not accept these updated Terms or do not wish to be bound by changes following posted notices that you should discontinue the use of the Picterus® Jaundice Pro. If you do not agree with all the Terms, do not use the Service. Please review all the Terms and the Instructions for Use carefully before using the Picterus® Jaundice Pro. In addition to these Terms, Picterus® Jaundice Pro is also governed by our Privacy Policy.

2. Intent of Picterus® Jaundice Pro

Picterus AS provides the following Services:

- The Picterus® Jaundice Pro
- The website www.picterus.com

The Picterus® Jaundice Pro is intended to assist the healthcare professional in screening for neonatal jaundice by optical measurement of bilirubin levels from pictures of the newborn's chest, where the Picterus® Calibration Card is placed. The equipment is intended to support authorized health personnel in their assessment of neonatal jaundice, not as a standalone equipment for the diagnosis and/or control of hyperbilirubinemia. Assessments shall never be made based on the Picterus® Jaundice Pro and/or the calibration card alone. Picterus® Jaundice Pro is only to be used on phones validated by Picterus AS. To see which phones are validated, please visit <https://picterus.com/picterus-jaundice-pro-validated-devices/>.

The Picterus® Jaundice Pro is intended for use in hospitals, health stations or home visits by authorized health personnel. By "authorized health personnel", it means health care professionals as defined by local law, often defined as health personnel with a formalized education and authorization, including but not limited to doctors, nurses, and other health professionals with specialization within paediatric, midwifery and paediatric nursing.

The Picterus® Jaundice Pro can only be used together with Picterus® Calibration Card which is developed and certified by Picterus AS. The instructions for use describe how to handle the Picterus® Calibration Card.

3. Please Note before Using the Picterus® Jaundice Pro

Picterus recommends you to carefully read the Instruction for Use before you use the Picterus® Jaundice Pro.

1. The app should only be used by you personally. Don't lend the app to others. This is because you cannot be sure that the person you are lending the app to knows how to use the app safely.
2. Indications: Only use the app on newborns who:
 - a. Are born with gestational age between 37-42 weeks.
 - b. Have birth weight between 2500 – 4500 gr.
 - c. Are between 1-14 days old.
 - d. **Have parents** with skin color, according to Fitzpatrick, Scale 1 to 4 in *Figure 1*. The six Fitzpatrick skin types and associated hair and eye color are classified from very light (1) to very dark skin (6). The Picterus® Jaundice Pro App is **only** valid for skin type 1 to 4.
3. The equipment is not intended as a standalone device for the diagnosis of hyperbilirubinemia. It is intended for use as a screening and control device with other clinical signs and laboratory measurements.
4. Do not use the app on newborns who:
 - a. Have pathological jaundice.
 - b. Are highly likely to develop pathological jaundice because of incompatible blood type or haemolytic jaundice.
 - c. Have other medical conditions that require medical treatment.
 - d. Have received phototherapy.
 - e. Have had the chest region exposed to sunlight over the last 24 hours. Sunlight changes the relationship between the amount of bilirubin in the blood and the skin and can thus make the measurements less accurate.
5. This equipment should only be used as intended, described in the intended use section above. The manufacturer is not responsible for events caused by improper use of the application.
6. The pictures must only be taken on the infant's chest. The skin must be clean, intact, and dry. It must not have been lubricated with skin cream, oil etc. The skin must not be affected by any skin condition or skin disease other than jaundice.
7. The Picterus® Jaundice Pro shall be used under adequate lighting.

4. Data collection and data privacy
